

MINI BALERS

The hand press series mini balers are used for compressing and recycling paper, plastic, cans and tins etc. These are used by vessels, hotels, resorts, recycling centers, and paper mills. Since these are mini balers, they have a small capacity less than 500 kilograms of waste. The compact machine size requires only one to two square meters of area for installation.

SPECIFICATIONS

Model	50LA6040	100LA6040	200LA8060
Hydraulic Power	5tons	10tons	20tons
Motor Power	1.5kw	2.2kw	3kw
Feeding Size (L*H)	500*300mm	500*300mm	700*400mm
Baling Chamber Height	900mm	900mm	1200mm
Bale Size (L*W*H, H is adjustable)	600*400* (200-600)mm	600*400* (200-600)mm	800*600* (300-800)mm
Bale Weight	15-40kgs	20-50kgs	50-120kgs
Machine Weight	500kgs	800kgs	1000kgs
Machine Overall Dimension	900*600* 2200mm	1000*800* 2250mm	1200*800* 2550mm

FEATURES

- ▶ A liquid collector is optional to collect the liquid that is left behind from the raw materials that were being used
- ▶ An automatic chain bale ejector is equipped for efficiently and effectively ejecting the bales out from the baler chamber
- ▶ The ram will stop running downwards when the feeding gate is opened which ensures the safety of the operation
- ▶ Equipped with independent emergency stop for safe operation
- ▶ Special ram guides design makes the platen not slope because of uneven materials feedings during compression
